fluid which meets Detroit Diesel Allison C-4 specifications.

### **Marine Transmission Service : Harbor Marine**

I have been trying to determine exactly what transmission I have in order to find the method in which to drain the oil. I believe I have a Velvet 5000 series transmission. The reason I say this is because the in and out hoses for the transmission cooler are on the top of the transmission itself. Neither of the hoses come out of the side.

Overheat Velvet Drive 5000 Series 120 hours approximately. 4 months out of warranty. I Decided to rebuild it myself. While tearing it down I found the output shaft .008 over shimmed And the lay shaft .024 over shimmed. When I replaced the transmission I questioned the high torque required to turn the output shaft.
