Campbell Biology in Focus - Pearson

Ecora Jahan P.3 5/31/20 Reflection Unit:5 Is.230 In this unit, I had learned a tremendous amount of things about ecology. To begin with, ecology is the study of the relationships between organisms and their environments. One thing that I learned in this unit was abiotic and biotic factors. Biotic factors are living organisms that are part of an ecosystem. . While abiotic factors are the ...

Unit 5 Test Review: Biology and Ecology Jeopardy Template

We study all of that in some depth in biology, and really ecology is a bit of a synthesis of a lot of what we learn, if anything, all of what we learn in biology because it's taking life, it's studying life at another level where it's not just the individual organism anymore, and it's not even just the population or the community, but we're ...
