How To Set Ignition Timing On Honda CB350, CB360, CB450 ...
The timing unit is located behind the timing cover on the right side of the engine crankcase. You set the timing by aligning a mark on a flywheel with an indicator-pointer at the top of the timing plate. Setting the timing on a Honda bike requires a few hand tools and a timing light.

How to Set the Timing on Honda Bikes | It Still Runs
The timing mark on the stator should be in the normal place, so if something's not lining up, it's really the only explanation that makes sense to me. Since the points are driven off the cam, none of this actually affects the timing. level 2. Original Poster 1 point · 3 years ago.

1972 Honda CB350 timing marks very wrong : Fixxit
All cam timing procedures usually start with rotating the crankshaft to a prescribed position. The specific steps to do this will vary depending on the engine, however, the importance of getting this part right cannot be stressed enough. Often times, small markings will have to be aligned with features internal to the engine, or on one of its ...

Blog - How To Set Cam Timing on Your Four-Stroke Motorcycle
My CB 250 is making a lot of noise, it sounds like to pieces of metal vibrating against each other. From what I have been able to find, it sounds like the Timing Chain Tensioner needs to be re adjusted, or replaced. (I checked over the bike and I can not find any vibrating metal that is making the noise, it sounds like its from the engine area) Is this is a difficult project to do?
