geometry and algebra (e.g. fundamental groups of manifolds, groups of matrices with integer coefficients) are finitely generated. Given a finite generating set S of a group G , one can define a metric on G by constructing a connected graph, the Cayley graph of G , with G serving as set of vertices, and oriented edges joining

Geometric bathroom tiles. The angular, or geometric tile can be triangular, hexagonal, curved or irregular in shape. When used in the bathroom, depending on the size of the room, the entire wall surface can be finished with geometric wall tiles. Or alternatively only the wet areas can be tiled including the shower, around the bath, over the wash hand basin and normally the entire floor.
