About the Book. Transportation Engineering, Volume II deals at length, in five distinct parts, with the engineering aspects of Railways, Airports, Docks and Harbours and Bridges and Tunnels that form part of the undergraduate curriculum in Transportation Engineering and caters to the needs of civil engineering courses offered by technical universities across India.

Transportation Engineering, Volume II: Railways, Airports ...

DOCK: > A dock is dug out and usually has gates so that the water level is kept up even though the tide has gone out. > A dock is for mooring ships for cargo or passenger exchange, or sometimes repair. 28. HARBOR: > A harbour may be natural or partly dug out, or even made with floating materials.

The construction of St Katharine Docks (1826-1830) marks the end of the first great phase of dock construction in the Port of London. It had begun in February 1800 with the excavations for West India Docks, and by 1833 had resulted in the provision of 250 acres (100 ha) of enclosed water in the Port of London. 16-20 In terms of water acreage, St Katharine Docks was a relatively modest ...
