The deepest is Smokey Hole, at 195 meters, explored by the Jamaican Caves Organisation (JCO) in 2006. The deepest underground river, 187 meters below the surface, is at Morgans Pond Hole. The largest chamber, 200 meters long, 100 meters wide, and 80 meters high, is at Dunn’s Hole. Research.

Visiting the Caves of Jamaica Jamaican Caves

He found an underground road — paved and all! — that led around 100 meters (330 feet), stone rooms walled off from other sections of cave, and even a temple submerged in water. “There are a number of elements that make us think that this road is a representation of the journey to Xibalba,” said de Anda.

Why the Mayans believed sinkholes led to the underworld

The Jamaican Caves Organisation is a non-profit group founded in 2002 dedicated to the discovery, exploration, and preservation of the caves and karst of Jamaica. Submissions of news, notes, and data are welcome. Collaboration is invited. We can be reached via our Contact Page. Please support the JCO.
