Jonathan: One ounce of gold bought me an acre of land in East Kansas two years ago. Now that land takes about 1.5 to 2 ounces of gold. So, that might mean gold is underpriced! Gold like land requires upkeep, and the upkeep for land can be significant, and anyone who has dealt with Kudzu in the South or Serecia Lespedeza in Kansas knows.

Scrooge, whose gold fever is by now so bad that he's hiccuping and at one point acts like a cat, uncovers the entrance to the temple, where practically every room is made of gold and stocked full of it. They head inside the central chamber inside the temple and come upon skeletons of deceased explorers who'd also been infected by gold fever.

Gold (Au), chemical element, a dense lustrous yellow precious metal of Group 11 (Ib), Period 6, of the periodic table. Gold has several qualities that have made it exceptionally valuable throughout history. It is attractive in colour and brightness, durable to the point of virtual indestructibility, highly malleable, and usually found in nature in a comparatively pure form.
