macOS User Guide - Apple Support

By John Rizzo. A Mac mini might be all the server (or servers) you need to run Lion. For a network or workgroup of about 5 to 15 client computers, a single Mac mini can handle file sharing, e-mail, web services, iCal Server, DNS (domain name server), and Open Directory with Kerberos authentication. For any one of these services, a recent mini model is good for 200 users, assuming access to appropriate storage.
