Normally PL/SQL running on the database can only access files on the host where the database instance is running even if you start PL/SQL with a SQL*Plus connection from another host. PL/SQL runs only the database instance not on the client side even if you start the PL/SQL code from a remote connection with SQL*Plus.

Read files in directories with PL/SQL | Oracle Community

As far as I know text_io is available through Forms only. utl_file will write on the special server folders only and will never write on local machine. Syntax for text_io is exactly the same as UTL file except that destination folder can be anywhere on client and need not be specified in the system

parameters.

How do I write to a local file with PL/SQL?
