OK, this is getting weird. Two days in a row that I am praising a Bill Gates presentation. Yesterday his June Harvard speech, and now today his annual keynote presentation at CES. Bill Gates's various presentations over the years (those supported by a multimedia background or PowerPoint at least) have usually been pretty dull affairs, often including bouts of "death-by-PowerPoint" visuals.

Visuals - Presentation Zen

As I mentioned before, I'm in the beginning stages of writing and designing another book, this one called Presentation Zen Design. For many of us, there is a hole in our education when it comes to communicating visually, and knowledge of even the basics of graphic design is missing for most people. This book intends to do its small part to help fix this problem by focusing on concrete graphic design principles and techniques in the context of presentation design, though the concepts and ...

Presentation Zen: Presentation Zen Design (the book)

PresentationZen Design by Garr Reynolds is a graphic design book for non-designers who want to create more effective multi-media presentations. As Reynolds states, "We know what we like when we see it, but we lack the visual literacy to articulate our thoughts..."
