Fix Samsung DLP that shuts off after 20 seconds and shows ...

My Samsung DLP HL-R5667W is freezing up especially when I watch in DVR mode or another a/v input mode like dvd or vhs. It freezes then goes through a sort of off/on cycle. Once it starts it happens every few minutes. I took it to a service shop and they said it needs a new light engine - \$780. The tv is 4 years old and out of warranty.

Samsung DLP - Light Engine? - ecoustics.com

Based on the symptom being experienced, this problem is fairly common and is because the Samsung projection TV uses the Texas Instruments "DLP" chip in its light engine. These chips contain thousands of tiny mirrors. The dots or pixels being observed are essentially these tiny mirrors failing.

Samsung Projection TV Troubleshooting Questions Answered

I have a SAMSUNG DLP hln617w1x/xaa and its broke. Here is what has happened. First, I got the three blinking lights at power up, I looked in the manual and it said to replace the bulb, which I did. I got the new bulb replaced it and it worked for about another week. Again back to the same problem, 3 blinking lights. Funny enough, when
